Adding Value to
Care & Cure...

Break the speed of acid increase
& Increase GI Motility

In,
 GERD & Dyspepsia with Nausea and
 Vomiting

Rx

RABOKAN-L

Rabeprazole 20 mg + Levosulpiride 75 mg SR Capsules

PUTS THE STOMACH AT EASE

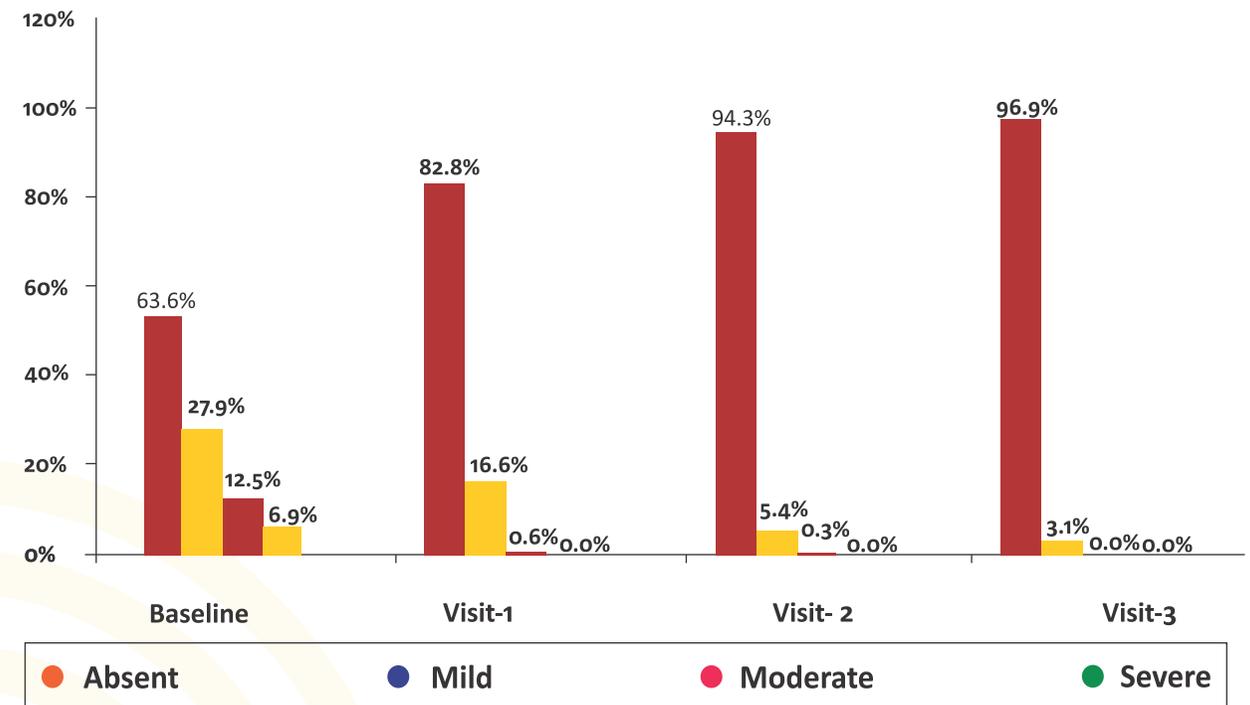

❖ Levosulpiride

Effectively Controls Nausea & Vomiting In Patients
 Of Functional Dyspepsia.

❖ Rabeprazole

Effectively Raises The Intra gastric Ph Over 4 After
 The First Dose In Patients Of GERD.

Changes In Severity Of Nausea Throughout The Study

Rx

RABOKAN-DSR

Rabeprazole 20 mg + Domperidone 30 mg SR Capsules

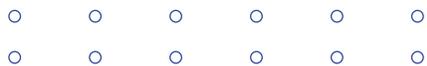

Conquer Gerd
improve quality of life, live fully

THE DESIRED, SUSTAINED RELIEF

- ➔ Rabeprazole and Domperidone provided significant and remarkable improvement in symptoms of GERD in Indian patients
- ➔ Most patients (94%) had excellent or good relief as assessed by their physician
- ➔ Rabeprazole and Domperidone not only provided desired relief of symptoms of GERD but also is very well tolerated
- ➔ This combination may also improve the quality of life of patients suffering from GERD

In,
Chronic Gastritis, Nausea with Acid
Peptic Disorders, Post-operative Nausea
and Vomiting, GERD

When safety, surely &
time is at the forefront

Rx

RABOKAN-20

Rabeprazole 20 mg Tablets

PPI AT ITS BEST

- » Fastest symptom relief from day 1
- » 93% healing rates in GERD
- » 98% healing rates in Peptic Ulcers
- » 2 times higher acid suppression than Omeprazole
- » Convenient OD dosage, absorption unaffected by food
- » Excellent safety profile

In,

- Gastroesophageal Reflux Disease (GERD)
- Erosive Esophagitis • GI Ulcers with Bleeding

Keep a close check on
your overall health

Rx

CHECKVIT

Multi Vitamins + Multi Minerals + Methylcobalamin Tablets

PERFECT MOVE FOR HEALTHY LIVING

Reasons Why Everyone Should Take Checkvit Tablets

1 Filling That Nutritional Gap:

90% of people don't get the recommended amount of important nutrients from food alone.

2 Nutrient Absorption Declines With Age:

The production of digestive enzymes begin to decline the older you get.

3 Avoid Harmful Chemicals:

Warning! Pesticides and Herbicides used to farm our food chemicals found in our water supply, and external environmental issues like pollution drastically increase our need for extra vitamins and minerals.

4 Exercise Increases Nutrient Needs:

As you exercise, your body uses up the energy and nutrients that have been stored in your body. It is vital to replenish these essential nutrients, fuel your energy levels, and promote recovery after an intense workout.

5 Poor Eating Habits:

Erratic eating habits, eating processed junk food, and stress contribute to poor digestion, making it difficult for our bodies to extract all the nutrients it need from food.

6 Prevent Expensive Health Issues:

Taking daily supplements, getting regular exercise, and making frequent trips to the doctors are important for preventing costly health issues from arising in the future.

7 Soil Depletion:

techniques use fertilizers that deplete the soil and rob the plants of essential nutrients.

Rx

For man on the move
fast nutrition & desired appetite

CHECKVIT

Multivitamin + Multi Minerals + L - Lysine + Vitamin D3 Syrup

The QUICK NUTRITION PROVIDER

Each 5 ml contains :

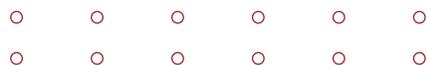

Multi Vitamins

Vitamin A (As Palmitate IP)	2500 IU
Vitamin D3 (Cholecalciferol IP)	200 IU
Niacinamide USP	15 mg
Vitamin E (Tocopherol Acetate IP)	5 IU
D-Panthenol IP	2.5 mg
Vitamin B1 (Thiamine Hydrochloride IP)	1 mg
Vitamin B2 (Riboflavin Sodium Phosphate IP Eq. to Riboflavin)	1 mg
Vitamin B6 (Pyridoxine Hydrochloride IP)	1 mg
Vitamin B12 (Cyanocobalamin IP)	1 mcg

Multi Minerals

Iodine (As Potassium Iodide IP)	50 mcg
L-Lysine Hydrochloride BP	30 mg
Selenium (As Sodium Selenite Pentahydrate BP)	10 mcg
Molybdenum (As Sodium Molybdate Dihydrate BP)	8 mcg
Zinc (As Zinc Sulphate Monohydrate IP)	3 mg
Manganese (As Manganese Chloride USP)	0.8 mg

In a flavoured syrupy base

Rx

FROGUT

Pre & Probiotic with L - Glutamine Capsules

REJUVENATES YOUR GUT FLORA

Probiotics are thought to have positive effect on

- » Digestive Health
- » Mental Health
- » Gastrointestinal Health
- » General Health

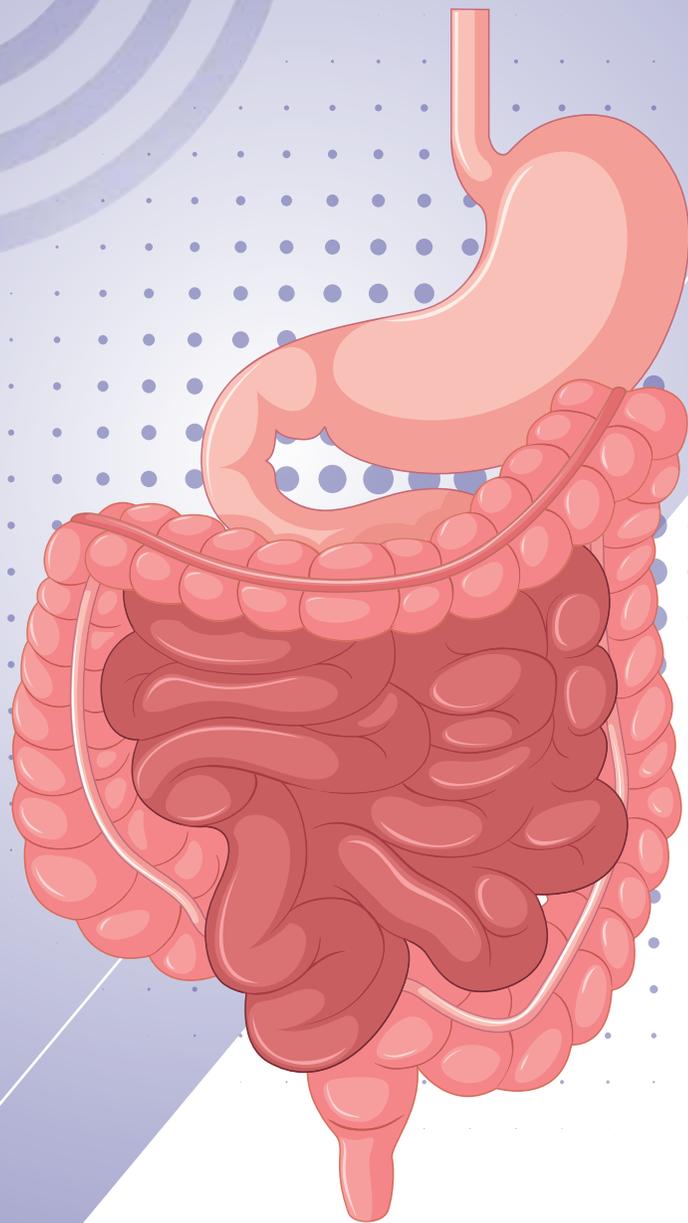

Each hard gelatin capsule contains:

Fructo Oligo Saccharide	200 mg.
L-Glutamine	100 mg.
Bifidobacterium Longum	150 million spores.
Bifidobacterium Bifidum	150 million spores.
Sterptococcus Thermophilus	150 million spores.
Lacto Bacillus Acidophilus	300 million spores.
Excipients	q.s.

R_x

ADIPAM PLUS

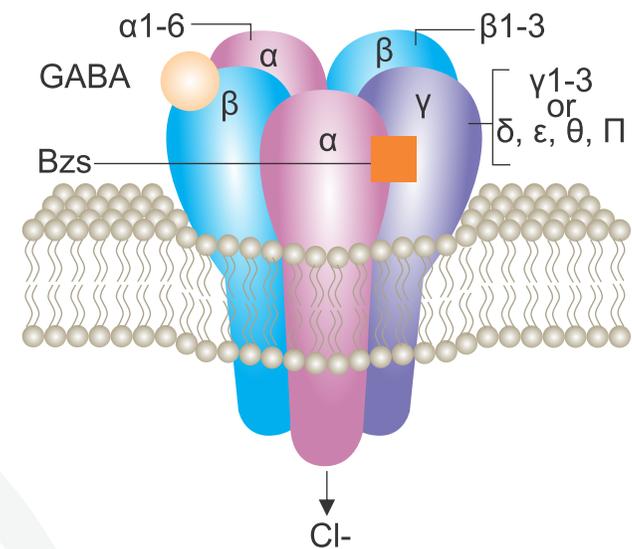

Clonazepam 0.5 mg + Escitalopram 10 mg Tablets

RESTORES THE PEACE

Benzodiazepines (Like Escitalopran) enhances the effect of the neurotransmitter gamma-aminobutyric acid (GABA) at the GABA_A receptor, resulting in sedative, hypnotic (sleep-inducing), anxiolytic (anti-anxiety), anticonvulsant, and muscle relaxant properties.

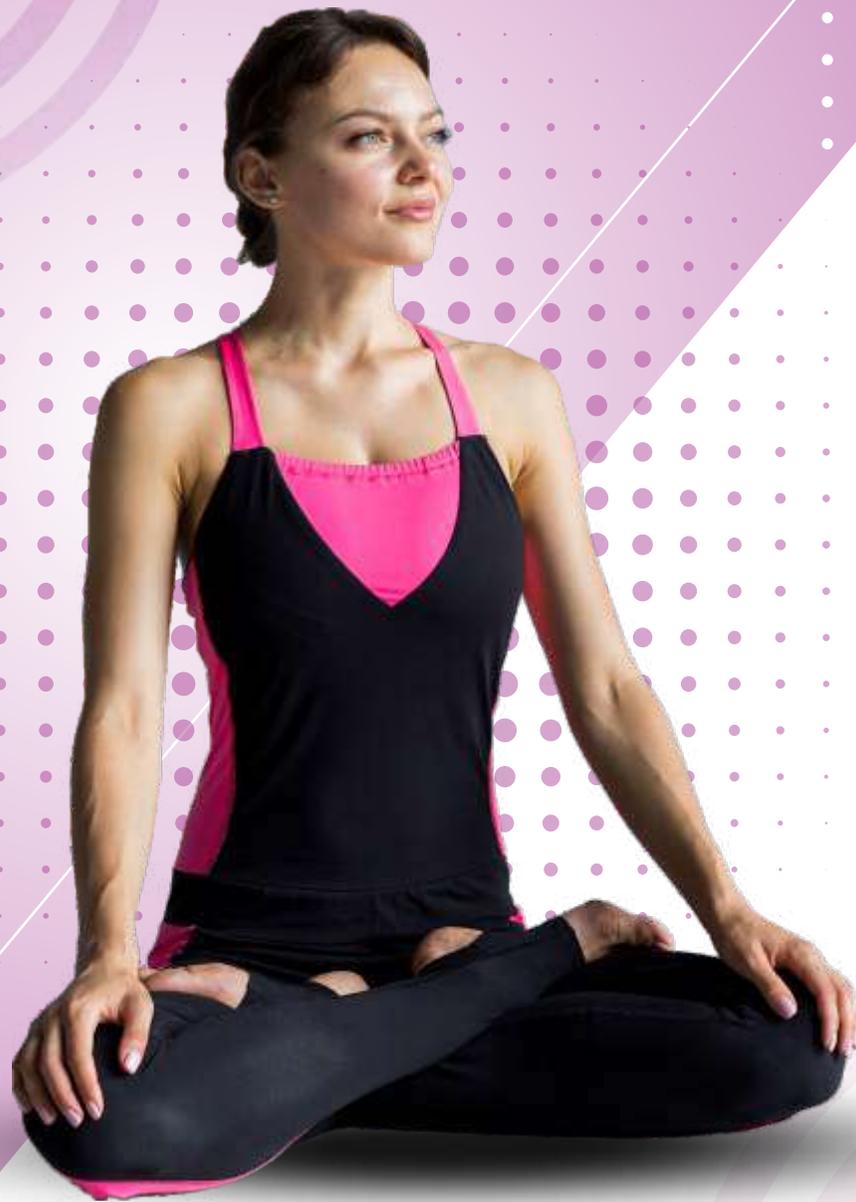

Clonazepam binds to GABA_A receptors, thus increasing the effect of the chief inhibitory neurotransmitter γ -aminobutyric acid (GABA).

GABA_A receptor

In,
Depression, Anxiety, Panic Disorders

A ray of life to
calm your mind

Rx

ADIPAM LITE

Clonazepam 0.25 mg + Escitalopram 10 mg Tablets

RESTORES THE PEACE

“

- ▶ Recommended dose to start with for panic disorders with or without agoraphobia
- ▶ Extremely effective in treating post-traumatic stress disorder
- ▶ Very effective in the prevention of seizures of different types
- ▶ Effective in the treatment of a specific sleep disorder known as REM Sleep Behaviour Disorder
- ▶ Safe in elderly and in more sensitive patients

”

In,
Panic Disorders, Stress, Insomnia,
Elderly Geriatric

Also available

ADIPAM
(Escitalopram 5/10 mg Tablets)

Let us have
a sunrise in life

Rx
ADIPAM
(Escitalopram 5/10 mg Tablets)

To breathe fresh from depressive disorders,

“

A Ray of Light

- 1st line therapy for depressive disorders
- A potent anticonvulsant and anxiolytic
- Restores the balance of Serotonin in the brain
- Significant reduction in suicidal tendencies and episodes
- Decreases nervousness, Increases energy levels and compliance

Indicated in

- Anxiety Disorders
- Panic Disorders
- Depressive Conditions
- Epilepsy
- Obsessive Compulsive Disorders

Cull allergies that kill your
enthusiasm, come back to normal living

Rx

KANMONT-L

Levocetirizine 5 mg + Montelukast 10 mg Tablets

STOPS ALLERGY, EASES BREATHING

- ▶ **Montelukast** blocks leukotrienes that cause or worsen asthma and allergies. It helps make breathing easier by reducing inflammation in the airways
- ▶ **Levocetirizine** has a longer duration of action on improving total nasal symptoms score than fexofenadine after single administration

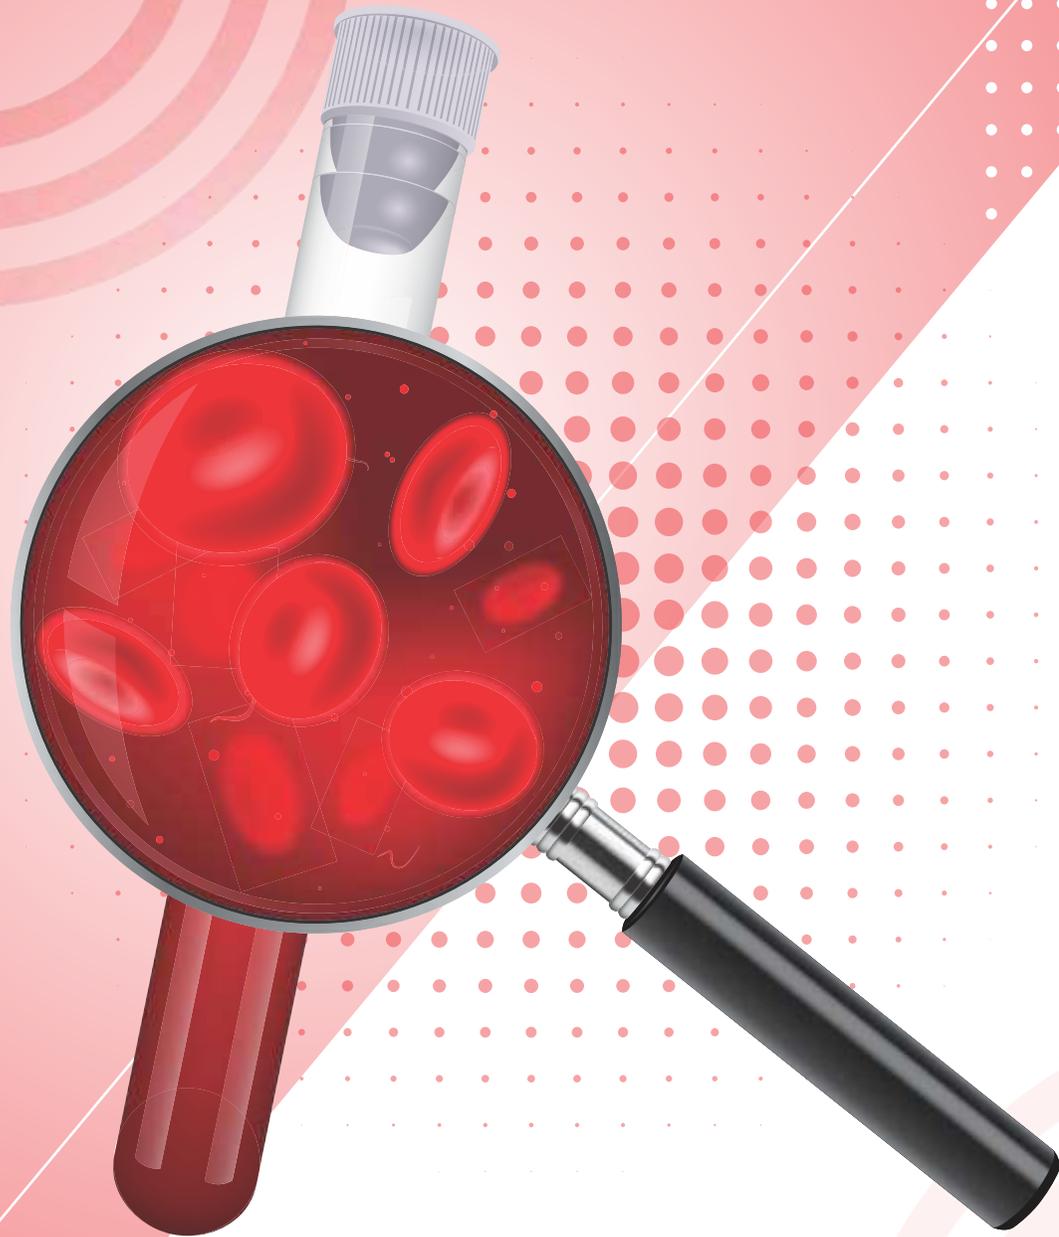

For,
Seasonal and Perennial Allergic Rhinitis,
Chronic Idiopathic Urticaria, Bronchial Asthma

**Brings Life back
on Track ...**

Omit Iron deficiency ,
add the right ferrous

Rx

OMIFER-O

Ferrous Ascorbate 100 mg + Folic Acid 1.5 mg Tablets

YOUR PERSONAL IRONIZER

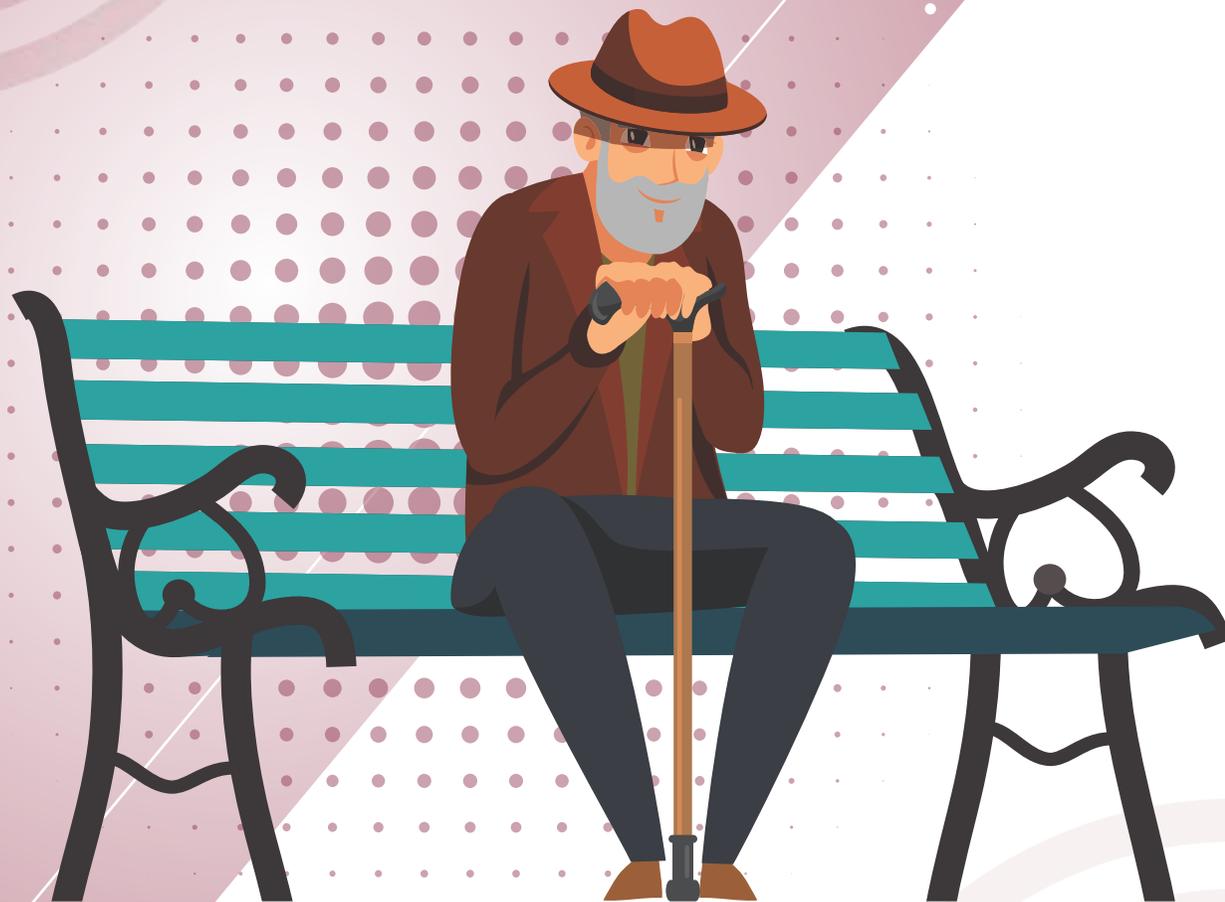

👉 Your patient may complain of any of following symptom It simply would mean they have iron deficiency & need **Omifer-O**

- 👉 Unusual Tiredness
- 👉 Paleness
- 👉 Shortness of Breath
- 👉 Headaches and Dizziness
- 👉 Heart Palpitations

- 👉 Dry and Damaged Hair and Skin
- 👉 Swelling and Soreness of the Tongue and Mouth
- 👉 Restless Legs
- 👉 Brittle or Spoon-Shaped Fingernails
- 👉 Cold Hands and Feet

Make your mornings
a pleasant one

In,
For Your patients with high HbA1c
&/or with unregulated Triglyceride levels

IKATEL[®] 40

Telmisartan 40mg Tablets

RISE FRESH WITH A FRESH SUNSHINE

Greater efficacy in controlling early morning BP

PARAMETERS

- » Early Morning Systolic / Diastolic BP
- » Plasma B Type Natriuretic Peptide
- » Serum Total Cholesterol
- » Low Density Lipoprotein Cholesterol
- » Triglyceride

Post 1 Significant increase in parameters, Compared to Base Line

Post 2 Telmisartan had more beneficial effects on all parameters

Successful partnerships
yield best results

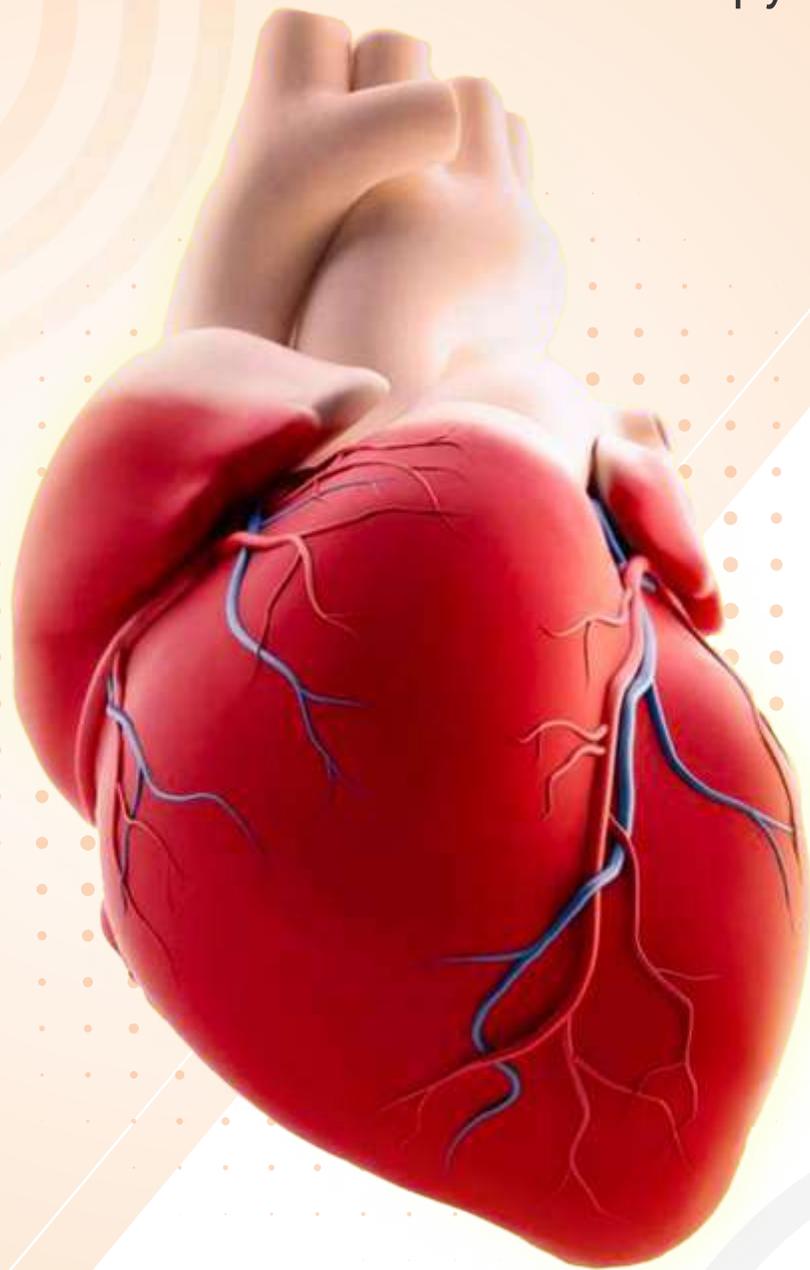

IKATEL[®] H 40

Telmisartan 40mg + Hydrochlorothiazide 12.5 mg Tablets

PARTNERS FOR ASSURED SUCCESS

- Telmisartan with the Thiazide diuretic HCTZ Provides anti hypertensive therapy with complementary mechanisms of action
- Significant reductions in BP in non-responders to monotherapy
- Consistent 24-hour BP reductions throughout morning, daytime & night-time
- Mild and transient adverse event
- Fixed-dose combinations of IKATEL H Provide an effective, rational and generally well tolerated treatment option for the management of patient with hypertension

In Moderate to severe
Hypertensive Patients
not controlled with Monotherapy

...Safe & reliable

IKATEL CT

Telmisartan 40mg + Chlorthalidone 12.5mg Tablets

Telmisartan

Confers Cardiovascular protective effects
with better tolerability than ramipril

Chlorthalidone

More sustained antihypertensive
effect than HCTZ

Indications

**In patients not adequately
controlled with monotherapy**

**As initial therapy in patients likely
to need multiple drugs to help
achieve blood pressure goals**

Best is always
better than better

IKATEL[®] AM

Telmisartan 40 mg + Amlodipine 5 mg Tablets

EFFICIENT YET SAFE, ALWAYS

- IKATEL AM led to efficient BP reduction in previously uncontrolled hypertensive patient on angiotensin II receptor blocker monotherapy”
- The estimated glomerular filtration rate decreased slightly but significantly in the Telmisartan/ Hydrochlorothiazide group alone
- Compared with the IKATEL AM group, serum potassium and brain natriuretic peptide levels decreased and uric acid and hemoglobin A1 c levels increased significantly in the Telmisartan Hydrochlorothiazide Group

Blood Press Monit. 2016 jun;21(3):171-7.
doi: 10.1097/MBP.0000000000000172.

Failures are the stepping
Stone for success

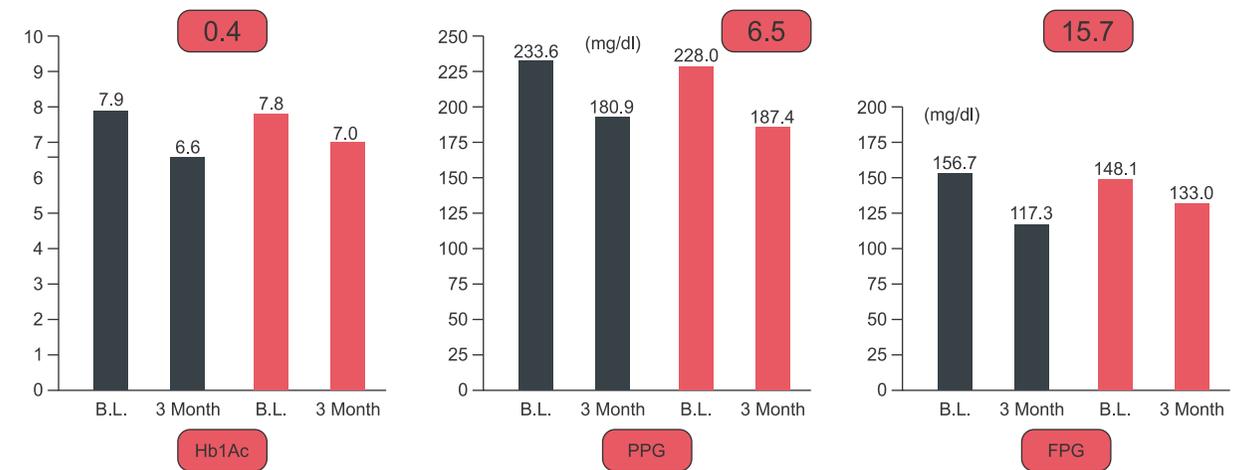

ADIGOG[®] M1 M2

Glimipiride 1/2 mg + Metformin 500 mg (SR) Tablets

LOVES TO OVERCOME PREVIOUS FAILURES

Excellent Glycemic control compared to metformin up-titration treatment

Mean changes in blood glucose

In the present study,

- ▶ HbA1c lowering effect was Statistically Superior in the G/M FDC group compared with the Met UP Group
- ▶ The response rate, defined as the ratio of patients achieving each HbA1c <7% and FPG.<140 mg/dl, was significantly higher in the G/M FDC Group
- ▶ The titration period was shorter in the G/M FDC Group than the Met Up Group

Early combination therapy with glimepiride and Metformin could provide the benigit of earlier glucose control, avoiding negative glycemic memory ralated to micro and macro-vascular complication.

■ G/M FDC: Glimipiride/Metformin fixed-dose combination | ■ Met Up: metformin up- titration treatment

Blood Press Monit. 2016 jun;21(3):171-7. /doi: 10.1097/MBP.000000000000172.

bones & healthy nerves....

Bring Back Your
Bones To Life

DJET-MAX

Calcitriol 0.25mcg, Omega-3-Fatty Acids 300mg (EPA & DHA), Methylcobalamin 1500mcg,
Folic Acid 800mcg, Boron 1.5mg & Calcium Carbonate 500mg **Soft Gelatin Capsules**

*Get The **maX Edge***

- Reduces risk of Osteoporosis being an important nutrient
- Increases Calcium Absorption thus less falls and fractures
- Slows the rapid rate of Bone Loss in both men and women
- Reduces Homocysteine thus reduces Osteoporosis related fractures
- Gives optimum Bone Metabolism and prevents excessive Bone loss
- Boron provides Minerals to Bone and bone matrix formation
- Methylcobalamin helps in the Healthy Development of immune circulatory and nervous system

Indicated in;
Low Calcium Levels
Rickets
Osteoporosis

Build the fighting
spirit in calcium deficiency conditions

Rx

DJET CT

Calcium Citrate Malate 1000 mg + Magnesium 100 mg +
Zinc 7.5 mg + Calcitriol 0.25 mcg Tablets

THE DEPENDABLE BONE COMPANION

Calcium Citrate Maleate

- » Effectively promotes the consolidation & maintenance of bone mass
- » Decreases bone fracture risk and slows the rate of bone loss in elderly

Calcitriol

- » Helps in intestinal calcium absorption and is essential for keeping **bones strong and healthy**

Zinc and Magnesium

- » **Bone mass & strength** require adequate and constant supply of nutrients & minerals such as magnesium, zinc

Systemic administration of Zinc & Vit. D with Ca increased the new bone regeneration in grafted rat tibial defects more than Ca alone supplementation (p= 0.005).

Magnesium supplementation increases the dynamic strength of bone because it increases bone formation through osteocalcin synthesis and suppresses bone resorption.

Vitamin D deficiency may play havoc.
jet set go for bone health

Rx

ADYLIN 

Methylcobalamin 1500 mcg + ALA 100 mg + Pyridoxine 3 mg +
Folic Acid 1.5 mg + Vitamin D3 1000 I.U. Tablets

NUTRITION AT ITS BEST

Pyridoxine:

Necessary for creating neurotransmitters that regulate emotions, including serotonin, dopamine and gamma-aminobutyric acid (GABA)

Methylcobalamin:

Helps brain function and development; Facilitate melatonin and serotonin production, essential for mood and sleep

Alphalipoic Acid:

Improve the function and conduction of neurons

Folic Acid:

Helps Iron absorption to relieve anemia; support proper brain function ; improve mood

Vitamin D3:

Helps in calcium absorption; Vitamin D activates genes that regulate the immune system and release neurotransmitters (e.g., dopamine, serotonin) that affect brain function and development

In,
Nutrition Deficiency States
Neuropathic Pain

A power pill for Unseen Pain

In,
OA, RA, Sprain, Strain,
Acute and Chronic Pain, Low Back Pain

Rx

ADYLIN-PGN

Pregabalin 75mg (SR) + Methylcobalamin 1500mcg + Nortriptyline 10mg Tablets

RELAXES NERVES, RELIEVES PAIN

Nortriptyline

- inhibits the reuptake of serotonin and norepinephrine by the presynaptic neuronal membrane, thereby increasing the concentration of those neurotransmitters in the synapse. Additionally, nortriptyline inhibits the activity of histamine, 5-hydroxytryptamine, and acetylcholine, thus helping patients battling neuropathic pain / distress.

Pregabalin

- inhibits the reuptake of serotonin and norepinephrine by the presynaptic neuronal membrane, thereby increasing the concentration of those neurotransmitters in the synapse. Additionally, nortriptyline inhibits the activity of histamine, 5-hydroxytryptamine, and acetylcholine, thus helping patients battling neuropathic pain / distress.

Neuropathic pain is relieved more effectively by combination treatment with the anticonvulsant **Gabapentin** and the antidepressant **Nortriptyline** than by treatment with either drug alone, a study published online in the lancet has shown.

Methylcobalamin

- protects the myelin sheath and thus nerves; Improves nerve conduction & prevents peripheral neuropathy.

A potent combination
With Better GI tolerability

Rx

ADETOR TH

ETORICOXIB 60 MG + THIOCHOLCHICOSIDE 4MG TAB

ADDING POTENT RELIEF IN PAIN AND SPASM

Etoricoxib is equally effective but safer than Diclofenac

Data from various sources, including randomized controlled trials and meta-analyses, suggests that etoricoxib, and diclofenac are largely similar in their efficacy and CV safety, but etoricoxib is associated with less GI toxicity than diclofenac.

Thiocolchicoside is an effective muscle relaxant with anti-inflammatory properties

Thiocolchicoside is a muscle-relaxant (skeletal) agent used for the treatment of orthopedic, traumatic and rheumatologic disorders. With anti-inflammatory & analgesic properties, it is effective in acute and chronic lumbar and sciatic pain, cervico-brachial neuralgia, persistent torticollis, post-traumatic and post-operative pain.

In,
OA, RA, Sprain, Strain,
Acute and Chronic Pain, Low
Back Pain

Also available
